

7. Aribrush Tool Project - Swirl

This project uses the Airbrush tool to make an image with several overlapping spirals of different colors on a dark background.

Step One

Open Paint, and click the Fill With Color tool icon to select the Fill With Color tool. Then select one of the darker choices from the color box and fill the canvas with that color.

Step Two

Click the Airbrush tool icon to select the Airbrush tool. Then select one of the larger Airbrush size choices.

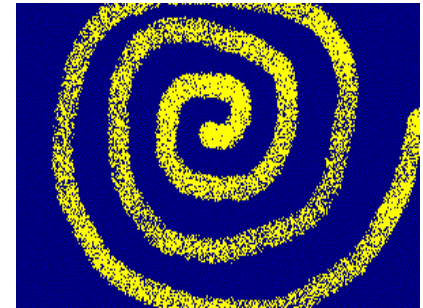

Paint toolbox with Airbrush tool selected.

Click to select one of the larger Airbrush size choices.

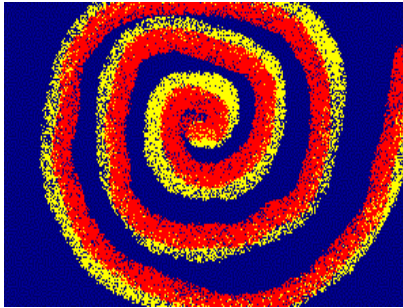

Step Three

Click the canvas in the center, and drag to draw a spiral that fills the whole canvas. Release the left button to finish.

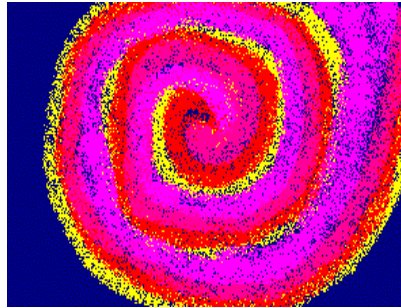

Step Four

Choose a new color from the color box and draw another spiral within the first one.

Step Five

Choose additional colors from the color box and repeat the process until you feel your drawing is finished.
