

3. Brush Tool Project - Scribble

This project uses the Brush tool to make an image with lines that are scribbled all over the canvas.

Step One

Open Paint, and click the Brush tool icon to select the Brush tool. Then select one of the brush size/shape choices. Finally, select a color by clicking a choice in the color box

Paint toolbox with Brush tool selected.

Click to select one of the brush size/shape choices.

Step Two

Point to a place inside the canvas, then click-and-drag to make a scribbled line. Release the left button to finish.

Step Three

Select another color by clicking a choice in the color box, then click-and-drag to make a scribbled line with a different color. Release the left button to finish.

Step Four

Continue to add additional scribbles using different colors.

Step Five

Experiment with different brush sizes and shapes. Continue to scribble until you decide that your drawing looks finished.
