

2. Line Tool Project - Starburst

This project uses the Line tool to make an image with lines that intersect in the center of the canvas.

Step One

Open Paint, and click the Line tool icon to select the Line tool. Then select one of the line width choices.

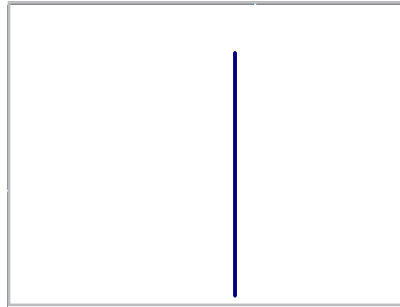

Paint toolbox with Line tool selected.

Click to select one of the line width choices.

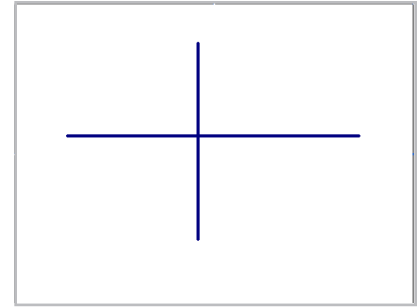

Step Two

Point to a place in the middle of the top of the canvas, then click-and-drag to make a vertical line. Release the left button to finish drawing the line.

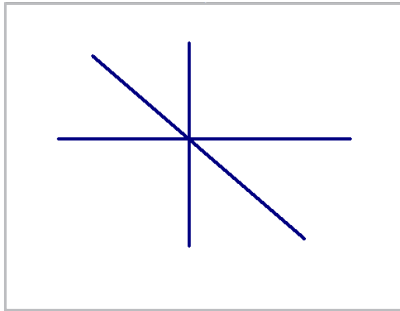

Step Three

Point to a place in the middle of the left side of the canvas, then click-and-drag to make a horizontal line. Release the left button to finish drawing the line.

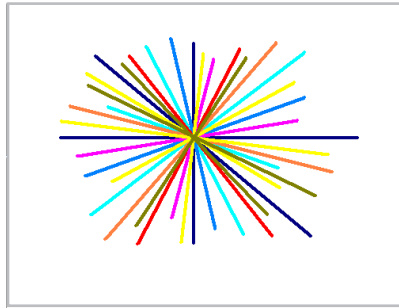

Step Four

Click-and-drag across the intersection of the first two lines to add more lines.

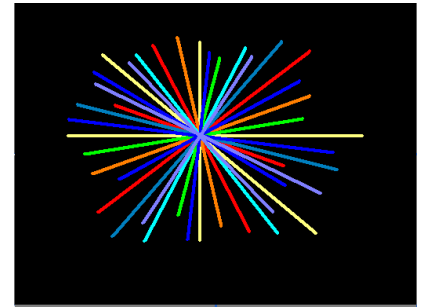

Step Five

Add different colored lines by clicking choices in the color box.

Step Six

If you wish, press **Ctrl + I** on the keyboard to reverse the colors and make the background black.
