

Photo Editor / DaakuMataa Variations Project

Junior Level

Specifications	Value
Use Photo Editor and PowerPoint or DaakuMataa and PowerPoint to make a graphic display using one image according to the following specifications: • The image used in this project must be resized so that it is 3" wide. • Six different Effects filters must be applied to the image. • For Photo Editor, each time an image is changed with an Effects filter, it must be copied and pasted into a blank presentation slide in PowerPoint. • For DaakuMataa, each time an image is changed with an Effects filter, it must be saved with a new name and then inserted into a blank presentation slide in PowerPoint. • Each image in PowerPoint must have the same drop-down shadow. • The final result must be saved as a .ppt file with a filename that includes your name.	\$.05 (Photo Editor) \$.10 (DaakuMataa)

Intermediate Level

Specifications	Value
Use Photo Editor and PowerPoint or DaakuMataa and PowerPoint to make a graphic display using six different images according to the following specifications: • Each image used in this project must be resized so that it is 3" wide. • The same Effects filter must be applied to each image. • For Photo Editor, each time an image is changed with an Effects filter, it must be copied and pasted into a blank presentation slide in PowerPoint. • For DaakuMataa, each time an image is changed with an Effects filter, it must be saved with a new name and then inserted into a blank presentation slide in PowerPoint. • Each image in PowerPoint must have the same drop-down shadow. • The final result must be saved as a .ppt file with a	\$.10 (Photo Editor) \$.15 (DaakuMataa)

filename that includes your name.	
-----------------------------------	--

Senior Level

Specifications	Value
Use Photo Editor and PowerPoint or DaakuMataa and PowerPoint to make a graphic display according to the following specifications: • The display must contain 6 images that are related in some way. Make this a game where someone has to guess how all of the images are related. • For Photo Editor, the images must be modified using Effects filters and/or the Smudge tool, then cut and pasted into a blank presentation slide in PowerPoint. • For DaakuMataa, the images must be modified using Effects filters or one of the Macros, then saved with a new name and inserted into a blank presentation slide in PowerPoint. • Each modified image must have the same drop-down shadow. • The final result must be saved as a .ppt file with a filename that includes your name.	\$.15 (Photo Editor) \$.20 (DaakuMataa)
